A great way to fit your students

Size Sets provide you with a range of sizes that enable you to assist students in determining their shoe size. Minimal logic can go a long way...but the students will likely need some help ! If a size 9 is too large and the size 8 is too small - size 8 ½ is probably the way to go. Most students know if they have a wide foot but trying on a medium width can make it pretty easy to determine - this shoe is too tight - Get a WIDE ! Check to make sure what sizes are available in your shoe style but using the Shoe Order Form at ictuslimited.com/Easy-2-Use Form

Standard Sizes included in a Size Set

USE YOUR SIZE SET

Your Size Set is an investment in knowing the students will have the correct size shoes. This one time purchase can be stored for sizes use year after year.

OR

Use your Size Set to assure you have a good range of inventory for last minute needs such as a new student or a lost pair of shoes. Any unused shoes can be used towards next years Size Set.

OR

Before you place your order you may want to pull from the size set any shoes that can be used as part of your order. Subtract these from the total amount of shoes on your Easy to Use Composite Form

Respect your directors rehearsal time... measure one section while the band continues to rehearse and then go to the next section allowing for the least amount of disruption.

*You have an awesome and time consuming responsibility.
Let **Ictus** make your world a little easier.*
